

## SALT LAKE DAILY HERALD

SATURDAY MORNING, SEPT. 25, 1880.

THE DAILY HERALD is published every morning, Monday excepted, at East Temple Street, near First South, Salt Lake City, by the HERALD PUBLISHING AND PRINTING COMPANY. Subscription price \$10.00 per annum, postage included, in advance; or \$1.00 per month, in advance. Single copies, 5c. The SEMI-WEEKLY HERALD is published every Wednesday and Saturday morning, at \$3.00 a year; six months, \$1.75; postage included. The WEEKLY HERALD is published every Thursday morning, at \$2.00 a year; six months, \$1.25; postage included. Postage outside the U. S. and Canada, extra.

It is understood that the handsome sum of \$100,000 has been offered for "Maud S," the mare that has trotted a mile in less time than any other horse has been able to accomplish the feat. This is bringing her up to about \$100 per pound, a figure which certainly places the luxury beyond the reach of the poor.

It was a good example that the Plymouth Congregational Church, Minneapolis, met the other day. On the day after Pastor Stinson preached his farewell sermon, a committee of friends assembled and presented him with a draft for \$1,000, and his wife, who had given her services as leading soprano in the choir, one for \$500. If congregations could all have so much love and respect for their pastors, religion would have a better influence than it now possesses.

A thoroughly posted politician, and one who is not given to enthusiastic exaggerations, writes from Chicago to a friend in this city: "Hancock is the man who is going in with a rush, as Maine distinctly shows, and Indiana will confirm. I believe you will agree with me that Hancock is reasonably sure of his election by a large majority of the popular and electoral votes. The republicans are completely demoralized; the leaders have no faith in each other, and would be openly fighting now for policy's sake. I have but little doubt of Illinois, and Wisconsin may probably follow suit."

FRANCE no longer having any use for a crown, of course does not want any crown jewels, hence has begged to dispose of the old stock left over from the late empire. The jewels to be sold are such as have neither artistic value nor historical associations, but the money to be derived from them is to be expended in works of art for the National Museum. The Chambers every year cost \$50,000 francs for the purchase of works of art, but the money must all be spent within the twelve months, or goes back into the treasury. It thus frequently happens that the appropriation has been exhausted when a favorable opportunity for buying is seen, there being no money to take advantage of it. The minister of fine arts wants the \$1,500,000, to be derived from the sale of the crown jewels to be held as a reserve fund, with which to capture bargains when they are presented.

THE LIBERALS show plainly that they expect nothing by asking for more than facts could hope to gain. The most nonsensical, not to say impudent, proposition is their platform is the suggestion that the people be divested of legislative power, which is to be supplanted by "a tribunal to be provided for by Congress and the national executive." The territories have been accorded a few of the rights enjoyed by states, and the right, under certain restrictions, to make laws for their government is one of them. That will continue, despite all the resolutions that can be adopted. The day has gone by, if it ever existed, when a majority of congress could so seriously think of being guilty of so gross an infamy as the liberals ask for. The rights of the territories will never be abridged. This may be set down as a certainty.

The system as it at present exists is so unrepugnant that the leading minds of the nation are ashamed of it, and would gladly see it changed for one more in harmony with the principles upon which the republic is founded. The territorial system would long ago have passed out of existence had it not furnished so many places in which to quarrel political hacks and played-out partisans who were unable to gain an honest living at home. The score or more federal offices in each territory furnish asylums for a host of broken down fellows, of cousins, uncles and nephews, who have some claims upon the party in power, and who would starve did government not provide them a life to suck. Our liberal friends are idly dreaming when they think the rights of people in the territories will be shortened in the least. Those rights will rather be enlarged and extended until the disgraceful system is wiped out, as it should be, being nothing more than a relic of tyrannical imperialism.

THE TIME must come, and we are hopeful enough to expect it soon, when the people of Utah will array themselves with the great political parties of the nation—democratic and republican. It will be impossible for them to keep aloof from national politics, and when they do take part in it, this petty local squabble will measurably cease. The voters, whether democratic or republican, will not listen to the little band of federal office-holders who think because government pays them good salaries for coming to Utah and doing nothing, they are commissioned to "run things" politically and socially. The federal officials will then occupy the positions to which their intelligence lifts them, and not the places they now assume to hold. When politics does take hold of the people of the territory, where will the liberals of to-day find themselves? The liberal party is composed chiefly of men who have been republicans or democrats,

yet we find them asserting doctrines and endorsing principles that any honest, intelligent democrat or republican would be ashamed to acknowledge. The liberal party has not common sense or even common decency as a foundation, and therefore must soon pass into obscurity, when those who are now acting with it will discover that they have made the mistake of reading themselves out of respectable organizations. No man who can endorse the truck put out as a platform by the liberals can ever become a democrat or republican without acknowledging that he was false to all principles of honesty and republicanism while he was a liberal. He must first admit that he was false to common decency and a traitor to principle before any political party would admit him to membership. We are anxious to have the great parties assert themselves in Utah, so as to enjoy the amusing spectacle of these "liberals" fulfilling the curse pronounced in Genesis: "Upon thy belly shalt thou go, and dust shalt thou eat," etc.

## LATEST TELEGRAMS.

## A Reprobate's Threat.

New York, 24.—Acklen, of Louisiana, is so sure of the way the democrats treat him, and threatens to elect the republican candidate for Congress in his district if it appears he cannot get it himself. It is believed he can make good his threats.

## A Very Good Choice.

Chicago, 24.—Inter-Ocean's Washington: It comes from good democratic authority that Hancock's secretary of the treasury, if he should be elected, will be August Belmont. The position has been promised him on account of the money he has put into the campaign.

## Bloody Murder.

River Falls, Wis., 24.—This afternoon Mary Weldon, aged 16, was found lying upon the floor at her home, horribly mutilated, dead and rapidly decaying. Her sister, aged 12, was lying on the lounge near by, but was only recovered. The father is missing. No clue to the murderers is obtained. The excitement is intense.

## A Fatal Snag.

Natchez, Miss., 24.—The steamer *Frederick Meyer*, from Cincinnati, struck a snag about 3 o'clock this morning, at Bullitt's Bayou, twelve miles above Natchez, and sank to the bottom. It is thought she will break in two. One cabin passenger, the second purserman, the porter and two rousters were drowned. The boat and cargo are a total loss.

## A Wages Question.

London, 24.—At the Manchester conference, after a long discussion of the cotton operatives, maintaining that trade is greatly improved since May, and masters declaring that in spite of this improvement they are still working at a loss, the masters' committee passed a resolution that in consequence of the still unprofitable state of trade, the committee regret they are at present unable to recommend an advance, but desire to repeat their promise to do so as soon as trade is sufficiently improved.

## Secretary Sherman's Speeches.

Chicago, 24.—Inter-Ocean's Washington: There is a pressing demand for Secretary Sherman to go to New York and make speeches, principally upon the financial record of the present administration, which Senator Cullum did not touch upon very largely. There is also a constant application for the secretary from Ohio and Indiana. He has arranged to go to Ohio next week and will speak there and in Indiana until the election, when he will vote, and then visit New York and Pennsylvania, making speeches in both states.

## Foreign.

Ragusa, 24.—The British consul arrived from Sicily where he deemed it dangerous for him to stay. The other consuls remain at their posts. Rias Pasha still awaits instructions from Constantinople and has not yet replied to Admiral Seymour's ultimatum. There are no Turkish regulars in Dalmatia. Two laborers, who have fraternized with the Albanians, are escaped near the town.

Paris, 24.—It is authoritatively denied that the Count de St. Vallery intends to resign the Berlin ambassadorship.

The circular letter of Minister Constant to the superiors of unauthorized religious confraternities, requiring them to submit to the March decrees, has not yet been dispatched to the superiors.

## The Ute Commission.

Washington, 24.—Secretary Schurz, today, received the following telegram from the chairman of the Ute commission:

ALBUQUERQUE, Cal., Sept. 23.

The commission have secured to the instrument of ratification the signatures of 682 adult males of the confederated bands of Ute Indians in Colorado. This number is more than three-fourths of the male adults of the Ute bands. We await your order. The law requires the signatures of only three-quarters of the adult male population of the Ute to a treaty to insure its ratification. Secretary Schurz will, in a day or two, instruct the commission in regard to the preliminary steps to be taken to secure compliance on the part of the Ute with the terms of the treaty, which require the removal of a portion of them to the limits of their new reservation as defined in the bill.

## EXPLOSIONS.

## Three Men Killed and Nine Wounded.

Detroit, 24.—An accidental explosion of 300 pounds of Hercules powder and nitro-glycerine took place this morning at the limekiln crossing, a short distance from the city, where twenty miles below this city, where government was engaged in extensive blasting to remove a dangerous ledge of rocks. The explosive materials were on a scow moored on the shore. This, of course was blown to atoms. The shock was felt miles away. Several workmen engaged in the vicinity were cut by flying splinters, but none seriously hurt. The boiler in Leese & Son's fruit drying house, at Monroe, exploded with terrific violence this forenoon, killing Henry O'Brien, engineer; Leonard Martin, cutter, and a boy named Obedience, and wounding more or less seriously nine others. There were at the time thirty persons around the building, which was demolished.

## THE WAR CLAIMS BUG-BEAR.

## President Hancock Makes a Flat and Pointed Declaration on the Subject.

Put That in Your Pipe and Smoke It.  
New York, 24.—The following letter is published in answer to one from Theodore Cook, of Cincinnati, asking General Hancock for an authoritative declaration whether, if elected president, he would consent to the payment of the claims of rebels for losses during the war.  
GOVERNOR'S ISLAND, N. Y.,  
September 23, 1880.  
To Theodore Cook, Esq., Cincinnati, Ohio.

Dear Sir:—Your letter of the 20th inst. received. I regret you are disturbed about that bugbear, "Southern war claims." People cannot be misled by it. To suppose that "rebel claims" or claims in the interest of persons who were in the rebellion, can in any way or in any degree be countenanced, is an imputation of disloyalty such as used to be made against the democrats even when they were in arms defending the country. So far as it touches me, I denounce it. The government can never pay a debt, or grant a pension, or give a reward of any sort for services rendered upon the rebel side; nor could I be induced to approve or encourage the payment of such debt, pension or reward. Nobody expects or wants such unnatural action. To propose it would insult the intelligence and honor of our people. When the rebellion was crushed, the heresy of secession was forever crushed; it is a thing of the dead past. We move forward and backward. I would vote for any legislation which might come before me providing for the consideration or payment of claims of any kind for losses or damages by persons who were in the rebellion, whether pardoned or not. In relation to "Union war claims," government's obligations to its defenders come first; they are lasting and sacred. The public laws of civilized nations do not, in general, recognize claims for injuries to property resulting from operations of war. Nevertheless, our government has treated with great indulgence the claims for losses and damages suffered by Union men from the military operations of the war of the Union; but as hostilities were closed more than fifteen years ago, claims of that nature are now mostly the work of the hands of brokers or persons other than the original sufferers, and are becoming stale. In my judgment, they might fairly be considered barred by lapse of time, and if hereafter entertained at all, should be subjected to the strictest scrutiny.

## PACIFIC POINTS.

## Brutal Murder—Hayes and Party.

San Francisco, 24.—Alfred Smith, correspondent of the California Associated Press at Sierra City, was murdered on Wednesday. His brains were beaten out with a hatchet, and his body deposited in his house, which was fired. Thomas Devine, a neighbor, with whom the deceased had a long-standing lawsuit over a land title, was arrested for the crime. The deceased was a native of Herkimer County, N. Y.

## Ohio dispatch: The presidential

left Ohio this morning with a delegation of citizens for Springfield, Va. They were met by a large crowd and a band of music, and were escorted to the hotel where they were to stay.

## DOESTIC.

## Sanbury, Pa., 24.—Grant Wideman was assassinated by a member of the democrats of the Fourteenth District.

Springfield, 24.—Articles of incorporation were filed today by the Burlington, Peoria and Elgin Railroad Company, capital \$12,000,000. The company proposes to build a railroad from Peoria to Toledo, the principal office to be at Chicago.

White River Junction, Vt., 24.—The official returns of the Vermont election: Total vote, 80,709; Farham, 47,894; Phelps, 21,238; Heath, 1,578; scattering, 14. Farham's majority, 33,895.

Omaha, 24.—The Nebraska state fair, held in this city, culminated today with an attendance of 20,000 people.

Chicago, 24.—Joe Dunn, for cruelty to animals, in driving his horse "Crooket" beyond his limited physical capacity in the late race between man horses, was fined \$25 today in the justice's court.

Washington, 24.—The treasury estimates will reduce the debt \$12,000,000, at least, this month. The revenue the past year has been over \$1,000,000,000, for each working day, against \$884,000,000, against \$274,000,000 in 1879, despite the reduction of the tobacco tax.

Terre Haute, Ind., 24.—The loss by the railroad collision on the Vandalia line is estimated at \$30,000.

## New Jersey Riots.

Bayonne, N. J., 24.—The trouble between the Standard Oil Company and the New Jersey Central Railroad continues. The railroad bridge at Centerville is still cut by the Standard Company's men, and was the scene of a riotous demonstration last night. Mayor Lane, bearing a collision, today swore 100 special policemen, and it is alleged by the Central Railroad people that all have been selected from the works of the oil company. Another man is reported shot. The man who shot Cedeno is still at large.

## Notice.

All communications on business, to insure immediate attention, should be addressed SALT LAKE HERALD, PRINTING AND PUBLISHING COMPANY, and not to any individual.

## RECEIPT BOOKS FOR SALE

AT HERALD OFFICE.

## OLD ARCTIC'S SECRETS.

## Fears that the Missing Whalers and the "Jeanette" Will Never More be Heard From.

San Francisco, 24.—The bark *Legal Tender*, which arrived this afternoon from the Arctic, reports that nothing has been heard of the *Monte Wollaston* and *Vigilant*, or the *Jeannette*. The revenue cutter *Thomas Corwin*, owing to the severity of the past winter and the tardiness in the break up of the ice this summer, was unable to continue on her errand. Letters received from some whaling ships by the *Legal Tender*, represent that they had done better up to the time of writing than in ordinary seasons, the best having captured about 150 whales all told. Through the same source it is understood that the *Corwin* intended to touch at Point Barrow, then cross over to the mouth of Mackenzie River, to search for the missing whalers; and if no clue of them were obtained at either place, to proceed thence to Wrangel Land. The friends of the missing whalers have not given up hope, although the whalers are anxious in expressing the belief that nothing will ever be heard from either them or the *Jeannette*.

## Too Good to Live.

Philadelphia, 24.—Dr. Green, of the Princeton Theological College, called attention to the fact that the council had accepted an invitation to attend the annual fair of the Pennsylvania State Agricultural Society, an organization which, if he had seen any of its members, he would have been inclined to regard as a Sabbath day by throwing open its exhibition to the public on Sunday. After a brief discussion the action of the council was reconsidered and the subject was laid on the table.

## You Have No Excuse.

Have you any excuse for suffering with Dyspepsia or Liver Complaint? Is there any reason why you should go on from day to day complaining with Sour Stomach, Sick Headache, Habitual Constipation, Palpitation of the Heart, Heartburn, Waterbrash, Gas, and Burning Pains at the pit of the Stomach, Yellow Skin, Coated Tongue and Disagreeable Taste in the Mouth, Coming Up of Food after eating, Low Spirits, etc. No! It is positively your own fault. You don't go to your Druggist and get a Bottle of GREEN'S AUGUST FLOWER. For 75 cents your cure is certain, but if you doubt this, get a Sample Bottle for 10 cents and try it. Two doses will relieve you.

## Strangers from the Tropics.

Visiting this country will find HALL'S HONEY OF HORSHOOD AND TAR a superior remedy for the Coughs, Colds and Bronchial difficulties which a change from a torrid to a temperate climate always engenders. Cobana who have tried it are loud in its praise. In fact, it has no equal in the pharmacopoeia, or among proprietary medicines, as a cure for Croup or Lung complaints. Froreable of all drugs, it costs 50 cents and \$1. Great saving by purchasing large size. Henry H. Kellogg, Watertown, N. Y., writes: "I have quite a sale of HALL'S HONEY OF HORSHOOD AND TAR; use it in my family and recommend it to my friends."

## PREY'S TOOTHACHE DROPS Cure in one minute.

USE INSTEAD OF UNWASHED SOAP, COMBES, GLASS'S EUPHUR SOAP, which purifies and beautifies the Skin. HILL'S HAIR AND WHISKER DYE, Black or Brown, 50c.

## "You Don't Know Their Value."

"They cured me of Agon, Biliousness and Kidney Complaint, as recommended. I had a half bottle left which I used for my two little girls who the doctors and neighbors said could not be cured. I am confident I should have lost both of them one night if I had not had the Hop Bitters in my home to use. I found them done them so much good I continued with them, and they are now well. That is why I say you do not know half the value of Hop Bitters, and do not recommend them too high enough."

## JOB PRINTING neatly, cheaply and quickly done at this office.

## WARM SPRINGS WATER.

THE FOLLOWING ANALYSIS BY DR. CHARLES T. JACKSON, of Boston, Mass., illustrates clearly the value of the water from the Warm Springs of this city. It reports as follows: "Three fluid ounces of the water, on evaporation to entire dryness in a glass capsule, gave 1.56 grains of solid dry, saline matter."

Percentage of these and magnesia, 0.240 1.260  
Sulphate of iron, 0.045 0.225  
Sulphate of lime, 0.045 0.225  
Sulphate of soda, 0.045 0.225  
Sulphate of potash, 0.045 0.225  
Sulphate of magnesia, 0.045 0.225  
Sulphate of lime, 0.045 0.225  
Sulphate of soda, 0.045 0.225  
Sulphate of potash, 0.045 0.225  
Sulphate of magnesia, 0.045 0.225

It is slightly charged with hydro-sulphuric acid, and is a pleasant saline mineral water, having valuable properties belonging to SULPHUR SPRINGS.

EXPERIENCE has shown that this water is quite valuable as a beverage in many diseases arising from indigestion and IMPURITY OF THE BLOOD. Being often asked why I do not keep the water on sale, I have decided that sending water which runs almost at our doors is too small a business, therefore I have arranged to supply the public with the water in the natural state, at the WEST DOOR OF MY ESTABLISHMENT, FREE OF CHARGE. Call and help yourself, and if you find that it does you good, let me know, so that others (especially the poor) may be helped and induced to use THIS CHAMPION OF ALL MEDICINES.
